

Dear the guests

Thank you so much for your continued patronage. Thanks to your gracious support, our Sakura restaurant has been able to celebrate its 5th anniversary since opening.

On January 6th, 2020, our restaurant will celebrate its 6th anniversary, but in order for us to better respond to the requests of our guests, we would like to change our course meal to a one-day prior reservation system from December 2019.

From this date, we will only be able to provide the course meal, if it is reserved in advance. The guest's allergies and other requirements should also be communicated one day prior to the reservation.

When making a reservation or one-day before your reservation date, please let us know of your preferred course meal and the number of your party. For example, could you please mention "course menu for four people". This is just ok for us.

You can select your preferred dish from the course meal upon arrival.

We sincerely apologize for the inconvenience, and humbly ask for your understanding on these matters.

Best regards

Takashi Noguchi
